

INTERNATIONAL SCIENTIFIC CONFERENCE

BIOGAS SCIENCE 2014

**BOKU University of Natural Resources and Life Sciences
Vienna**

The organising committee cordially invites experts interested in the field of anaerobic digestion to participate in the [International Conference Biogas Science 2014](#) from 26th to 30th October 2014 in Vienna.

Biogas Science 2014 will build on the success of [Biogas Science 2009 - Science meets practice](#) which took place in Erding, Germany.

The call for abstracts is open now and you can submit your paper for oral or poster contribution until the 28th February 2014. There will be the possibility to publish selected papers in a peer-reviewed journal to commemorate and document the conference. Additionally, a book on biogas science and technology will be published as part of the *Advances in Biochemical Engineering/Biotechnology*.

The conference Biogas Science 2014 will provide a platform for exchange of scientific knowledge concerning substrates for AD, gas technology and microbiology within the biogas area. The main topics are: Substrates in AD, Gas Technology, Process Technology, Microbiology, Life Cycle Assessment, Data Preparation.

The Biogas Science 2014 will take place at the conference centre in the [Schönbrunn Palace](#), one of the most important cultural monuments in Austria. The organizing committee forwarded this information to companies, students, authorities and academics and is available to bring more information about the Conference. The organizing committee is looking forward to meeting all the interested experts in Vienna at the Biogas Science 2014.
