

46 LOCAL ECONOMIC DEVELOPMENT AGENCIES PARTICIPATING TO VIRTUAL SEMINARS ON SUSTAINABILITY

At the beginning of the year ILS LEDA launched the initiative FOCUS 2016, which consist of several virtual seminaries (webinar) for facilitating the exchange of best practices of the LEDAs with regard to critical problems of their management.

Through previous consultations about the LEDAs' priorities, the first FOCUS has been organised with the objective of facilitating the engagement the LEDAs to a virtuous path towards their ultimate sustainability, through analysing and discussing the true roots of the issue, and best and worst practices.

46 LEDAs registered at the virtual seminar, of which 12 from Colombia, 14 from Argentina, 4 from El Salvador, 2 from Dominican Republic, Senegal, Lebanon, and Mozambique, and one each from Albania, Serbia, India, Haiti, Honduras, Guatemala, Ecuador, and Uruguay.

These LEDAs will participate to virtual seminars (webinars) that will occur in April and May 2016, through clustering them by countries or groups of countries, in order to allow the communication in different idioms and an appropriate number of participant.
